SUMMARY

B.S. Software Engineering graduate with hands-on experience building and deploying client websites full-stack and performing QA on a high-traffic live application. Proficient in C#, Python, JavaScript, and SQL, with AWS Cloud Practitioner and ITIL 4 certifications. Seeking a software development role.

CERTIFICATIONS

AWS Certified Cloud Practitioner – Issued November 2024

CompTIA Project+ – Issued September 2025

ITIL 4 Foundation – Issued December 2025

SKILLS

- **Programming Languages:** C#, Python, JavaScript
- **Web & Front-End:** HTML, CSS, React fundamentals, SEO basics
- **Databases & Data:** SQL (MySQL/SQL Server), data modeling, ETL basics
- **Cloud & DevOps:** AWS Cloud fundamentals, Git & version control, CI/CD pipelines
- **QA & Testing:** Test planning, bug tracking, writing clear defect reports
- **Tools & Frameworks:** Visual Studio, GitHub, SSMS, Claude Code
- **AI & GenAI Technologies:** OpenAI and Claude APIs, prompt engineering, TensorFlow, NumPy
- **Soft Skills:** Client-facing communication, Managing shifting priorities, Clear feedback

EXPERIENCE

Website Developer/Designer | Independent Contractor | Jan 2026–Present

- Built and deployed multi-page client websites from scratch using HTML, CSS, and JavaScript, delivering each project from initial setup to live production URL
- Iterated on layouts, navigation, and visual design through multiple client review cycles, incorporating direct feedback until final deliverables met business owner requirements
- Developed custom JavaScript components including hamburger menus, shared footer logic, and UI interactions without third-party frameworks, reducing codebase complexity and maintenance overhead
- Implemented SEO best practices on all sites including XML sitemaps, robots.txt configuration, canonical URLs, and noindex directives on non-ranking pages
- Identified and resolved cross-browser and cross-device bugs through systematic testing, maintaining site stability throughout updates
- Maintained version control across all projects using Git with descriptive commits, enabling straightforward change tracking and rollback when needed

Voluntary QA Contributor | Vesteria, Inc (Roblox Title, 95 Million+ visits) | Feb 2024–Present

- Tested new content including items, maps, and gameplay features for a 95M+ visit Roblox title prior to production release as part of a structured QA team
- Executed exploratory and scripted test sessions, documenting defects with sufficient reproduction steps and context to eliminate developer follow-up
- Produced organized bug reports and triage summaries enabling the development team to prioritize critical fixes versus deferred items
- Collaborated with QA team members on balance adjustments and feature feedback, focusing on gameplay fairness and player experience improvements
- Communicated findings to developers through written summaries and direct calls, delivering specific, actionable feedback efficiently

EDUCATION

Western Governors University - B.S. Software Engineering | Graduated December of 2025.

Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming (C#), Web Development, Database Management (SQL), Cloud Computing (AWS), Agile Methodologies, Network Security
